WRAL-FM

130 S. SALISBURY STREET
TEMPLE 4-6401
RALEIGH, NORTH CAROLINA

This is to acknowledge receipt of your reception report dated Aug 24, 1962. We were on the air at that time broadcasting on AM at 1240 kilocycles with 250/1000 watts output using a Collins 20V-2 transmitter feeding a 350 foot radiator. ~~(W.E. 310B)~~ On FM we were broadcasting at 101.5 with 250 KW ERP -

If you try for FM reception, we broadcast at 101.5 megacycles with a power of 250,000 watts ERP. Our antenna is a 12-bay jampro unit mounted about 970 feet above ground on our TV tower.

Best regards
